

MARITAL OPENNESS ROUTINELY EXPERIENCED

M.O.R.E Married Conference Summary

MORE Married Conferences are designed to address core issues and go boldly where most tend not to go: addressing real pain. Statistics show today's marriages are not moving toward intimacy but are fixed at varying levels of adjustment with deep emptiness and rigid distance while remaining under a cloud of despair.

The More Married Conference uses a Biblical approach to understanding the restorative dynamics behind marriages committed to struggling for true intimacy and authentic love. **The Conference format is non-threatening, where couples can reflect without the pressures of self-disclosing in group participation.** When the conference is completed, couples will have insightful and practical tools to help shrink marital shadows threatening God's mandate for an open, honest and loving marriage.

MORE Married Thought:

“There is no superior to inferior comparison between husband and wife.”

When God said, ‘Let’s make man in our image,’ the Trinity is co-equal in power and glory. Any attempt to make man superior to woman in the husband/wife relationship is an attack against the Trinity.”

~Jerry Price
